

**In series**  
The model is in series and available for the long term.

Specification

|                                         |                                           |
|-----------------------------------------|-------------------------------------------|
| Sensor                                  |                                           |
| Sensor type                             | CMOS Mono                                 |
| Shutter                                 | Rolling shutter                           |
| Sensor characteristic                   | Linear                                    |
| Pixel Class                             | 20 MP                                     |
| Resolution                              | 19.80 Mpix                                |
| Resolution (h x v)                      | 5136 x 3856 Pixel                         |
| Aspect ratio                            | 4:3                                       |
| ADC                                     | 10 bit                                    |
| Color depth (camera)                    | 10 bit                                    |
| Optical sensor class                    | 1/1.8"                                    |
| Optical Size                            | 7.168 mm x 5.376 mm                       |
| Optical sensor diagonal                 | 8.96 mm 1/1.8"                            |
| Pixel size                              | 1.4 μm                                    |
| CRA (Chief Ray Angle)                   | 13 °                                      |
| Manufacturer                            | Onsemi                                    |
| Sensor Model                            | AR2020CSSM13SMTA0                         |
| Gain (master/RGB)                       | 8x/-                                      |
| AOI horizontal                          | same frame rate                           |
| AOI vertical                            | increased frame rate                      |
| AOI image width / step width            | 648 / 12                                  |
| AOI image height / step width           | 2 / 2                                     |
| AOI position grid (horizontal/vertical) | 8 / 2                                     |
| Binning horizontal                      | increased frame rate                      |
| Binning vertical                        | increased frame rate                      |
| Binning method                          | Horizontal: addition / Vertical: addition |
| Binning factor                          | 2x2                                       |
| Decimation (subsampling) horizontal     | increased frame rate                      |
| Decimation (subsampling) vertical       | increased frame rate                      |
| Decimation (subsampling) method         | M/C automatic                             |
| Decimation (subsampling) factor         | 2x2                                       |

## Model

|                                   |                    |
|-----------------------------------|--------------------|
| Frame rate freerun mode           | 14 fps             |
| Frame rate trigger (continuous)   | 14 fps             |
| Frame rate trigger (maximum)      | 14 fps             |
| Exposure time (minimum - maximum) | 0.017 ms - 1144 ms |
| Power consumption                 | 0.5 W - 1.1 W      |
| Image memory                      | -                  |

## Ambient conditions

For PCB versions, refer to the separate hints in the respective documentation.

|                                             |                                 |
|---------------------------------------------|---------------------------------|
| Allowed device temperature during operation | 0 °C - 60 °C / 32 °F - 140 °F   |
| Allowed device temperature during storage   | -20 °C - 80 °C / -4 °F - 176 °F |
| Humidity (relative, non-condensing)         | 20 % - %                        |

## Connectors

|                     |                        |
|---------------------|------------------------|
| Interface connector | USB Type-C             |
| I/O connector       | 8-pin Wuerth connector |
| Power supply        | USB cable              |

## Pin assignment I/O connector

|   |                                            |
|---|--------------------------------------------|
| 1 | Voltage output 3.3 V                       |
| 2 | Ground (GND)                               |
| 3 | Flash output without optocoupler - Line 1  |
| 4 | Trigger input without optocoupler - Line 0 |
| 5 | General Purpose I/O (GPIO) 1 - Line 2      |
| 6 | General Purpose I/O (GPIO) 2 - Line 3      |
| 7 | Ground (GND)                               |
| 8 | USB Power: 5 V, max. 400 mA                |

## Design

|                  |                             |
|------------------|-----------------------------|
| Lens Mount       | S-Mount                     |
| IP code          | -                           |
| Dimensions H/W/L | 36.0 mm x 36.0 mm x 21.0 mm |
| Mass             | 14 g                        |

## Features

List of on-camera image pre-processing features.

All features of the table are available via our IDS peak software for image pre-processing on the host computer (sensor model dependent).

### Image Acquisition

|                             |   |
|-----------------------------|---|
| Freerun                     | ✓ |
| Software trigger            | ✓ |
| Hardware trigger            | ✓ |
| Trigger controlled exposure | - |
| Denoiser                    | - |
| Long exposure               | - |
| Line scan                   | - |
| Global start                | - |

### Flashing

|              |   |
|--------------|---|
| Flashing     | ✓ |
| PWM flashing | - |

## U3-36P1XLE-M-GL Rev.1.2 (1011193)

### Image Adjustments

|                   |     |
|-------------------|-----|
| Auto exposure     | -   |
| Auto gain         | -   |
| Auto whitebalance | -   |
| Color correction  | -   |
| Gamma             | -   |
| LUT               | -   |
| Mirror/flip       | X/Y |

### On-board Image Processing

|                     |                              |
|---------------------|------------------------------|
| Pixel formats       | Mono8<br>Mono10g40IDS        |
| Region of interest  | ✓                            |
| Decimation (FPGA)   | -                            |
| Decimation (Sensor) | 2x2                          |
| Binning (FPGA)      | -                            |
| Binning (Sensor)    | 2x2<br>Increases frame rate. |

### Others

|                                |      |
|--------------------------------|------|
| Chunks                         | -    |
| Sequencer                      | -    |
| Events                         | -    |
| Firmware update                | ✓    |
| 1st supported firmware version | 3.38 |
